

**INVESTMENT POLICY**

The Fund invests primarily in shares of companies headquartered, or carrying out the majority of their activities, in Europe. It selects companies that have adopted or will adopt a path of positive environmental, social and good governance (ESG) practices, focusing on those that aim to improve their ESG criteria in the future and those that are currently ESG leaders in their sectors. The selection of securities takes into account not only economic and financial aspects but also extra-financial criteria of sustainable investment, environmental, applying the ESG methodology developed by Amundi.

Further description of the investment policy can be found in the key investor information document (KIID), which is available at [sabadellassetmanagement.com](http://sabadellassetmanagement.com). **WARNING:** This Fund can invest up to 25% in fixed income securities rated below investment grade, which represents a high credit risk.

**UNIT CLASS PERFORMANCE (NET ASSET VALUE)**

Major changes in the investment policy took place on 18/02/2022.

**AVERAGE ESG RATING (source : Amundi)**

Environmental, social and governance rating

**ESG Investment Universe: MSCI EUROPE**

**Investment Portfolio Score:** 1.16

**ESG Investment Universe Score<sup>1</sup>:** 0.76

**ESG Coverage (source : Amundi)**

	Portfolio	ESG Investment Universe
Percentage with an Amundi ESG rating <sup>2</sup>	98.08%	99.93%
Percentage that can have an ESG rating <sup>3</sup>	98.08%	100.00%

**ESG Terminology**

**ESG criteria**

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

“E” for Environment (energy and gas consumption levels, water and waste management, etc.).

“S” for Social/Society (respect for human rights, health and safety in the workplace, etc.).

“G” for Governance (independence of board of directors, respect for shareholders’ rights, etc.)

**ESG Rating**

**The issuer’s ESG rating:** each issuer is assessed on the basis of ESG criteria and obtains a quantitative score, the scale of which is based on the sector average. The score is translated into a rating on a scale from A (highest rating) to G (lowest rating). The Amundi methodology provides for a comprehensive, standardised and systematic analysis of issuers across all investment regions and asset classes (equities, bonds, etc.).

**ESG rating of the investment universe and the portfolio:** the portfolio and the investment universe are given an ESG score and an ESG rating (from A to G). The ESG score corresponds to the weighted average of the issuers’ scores, calculated according to their relative weighting in the investment universe or in the portfolio, excluding liquid assets and non-rated issuers.

**Amundi ESG Mainstreaming**

In addition to complying with Amundi Responsible Investment Policy<sup>4</sup>, Amundi ESG Mainstreaming portfolios have an ESG performance objective that aims to achieve a portfolio ESG score above the ESG score of their ESG Investment universe.

<sup>1</sup> The investment universe reference is defined by either the fund’s reference indicator or an index representative of the ESG-related investable universe.

<sup>2</sup> Percentage of securities with an Amundi ESG rating out of the total portfolio (measured in weight).

<sup>3</sup> Percentage of securities for which an ESG rating methodology is applicable out of total portfolio (measured in weight).

<sup>4</sup> The updated document is available at <https://www.amundi.com/int/ESG>.

**Sustainability Level (source : Morningstar)**

The sustainability level is a rating produced by Morningstar that aims to independently measure the level of responsibility of a fund based on the values in the portfolio. The rating ranges from very low (1 Globe) to very high (5 Globes).
