

INVESTMENT POLICY

It invests in US dollar-denominated public and private fixed income assets. The financial duration of the portfolio ranges from zero to fifteen years. The Fund may invest up to 70% in mortgage-backed securities (MBS) and asset-backed securities (ABS). This includes indirect exposure through derivatives, which is limited to 50%. Exposure to MBS and ABS not issued by government agencies is limited to 50%. The selection of securities is made taking into account not only economic and financial aspects but also extra-financial criteria of sustainable investment, environmental, social and governance, also known as ESG, applying the ESG methodology developed by Amundi.

WARNING: This Fund may invest up to 20% in fixed income issues of low credit quality and therefore has a high credit risk. A fuller description of the investment policy can be found in the KID (Key Information Document) available at sabadellassetmanagement.com.

UNIT CLASS PERFORMANCE (NET ASSET VALUE)

The Fund is actively managed against a benchmark and seeks to outperform the 100% BLOOMBERG US AGGREGATE Index. The Fund is primarily exposed to benchmark issuers. However, management of the Fund is discretionary and will be in issuers not included in the benchmark. The Fund monitors risk exposure relative to the benchmark, even if the deviation from the benchmark is significant.

On 18/03/2015 there were significant changes in the investment policy.

Risk Indicator 1 2 3 4 5 6 7

The risk indicator represents the risk and return profile as presented in the KID. The lower risk level does not imply no risk. The risk indicator is not guaranteed and may change over time. Detailed information on the Fund's risks can be found in its prospectus.

AVERAGE ESG RATING (source : Amundi)

Environmental, social and governance rating

ESG Investment Universe: 100% BLOOMBERG US AGGREGATE

Investment Portfolio Score: 0.55

ESG Investment Universe Score¹: 0.46

ESG Coverage (source : Amundi)

| | Portfolio | ESG Investment Universe |
|---|-----------|-------------------------|
| Percentage with an Amundi ESG rating ² | 96.44% | 71.04% |
| Percentage that can have an ESG rating ³ | 96.85% | 71.87% |

ESG Terminology

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

“E” for Environment (energy and gas consumption levels, water and waste management, etc.).

“S” for Social/Society (respect for human rights, health and safety in the workplace, etc.).

“G” for Governance (independence of board of directors, respect for shareholders’ rights, etc.)

ESG Rating

The issuer’s ESG rating: each issuer is assessed on the basis of ESG criteria and obtains a quantitative score, the scale of which is based on the sector average. The score is translated into a rating on a scale from A (highest rating) to G (lowest rating). The Amundi methodology provides for a comprehensive, standardised and systematic analysis of issuers across all investment regions and asset classes (equities, bonds, etc.).

ESG rating of the investment universe and the portfolio: the portfolio and the investment universe are given an ESG score and an ESG rating (from A to G). The ESG score corresponds to the weighted average of the issuers’ scores, calculated according to their relative weighting in the investment universe or in the portfolio, excluding liquid assets and non-rated issuers.

Amundi ESG Mainstreaming

In addition to complying with Amundi Responsible Investment Policy⁴, Amundi ESG Mainstreaming portfolios have an ESG performance objective that aims to achieve a portfolio ESG score above the ESG score of their ESG Investment universe.

¹ The investment universe reference is defined by either the fund’s reference indicator or an index representative of the ESG-related investable universe.

² Percentage of securities with an Amundi ESG rating out of the total portfolio (measured in weight).

³ Percentage of securities for which an ESG rating methodology is applicable out of total portfolio (measured in weight).

⁴ The updated document is available at <https://www.amundi.com/int/ESG>.

Sustainability Level (source : Morningstar)

The sustainability level is a rating produced by Morningstar that aims to independently measure the level of responsibility of a fund based on the values in the portfolio. The rating ranges from very low (1 Globe) to very high (5 Globes).
